

# The Warlord Foundation

## Vision

Everyone faces battles. The Warlord Foundation supports those at risk of being left behind: youth trapped by gang crime and violence, injured athletes, and veterans struggling to find purpose. We provide the tools, opportunities, and support they need to rebuild and thrive.

## Purpose

We create opportunities where they are needed most. By supporting youth programs, community gyms, and care for injured fighters and veterans, we provide a path forward. Through mentorship, discipline, and community, we help people develop the strength to overcome their challenges and shape their future.

## 'The Four Pillars'

### 1. Youth Initiative

We help young people escape cycles of crime, violence, and drugs through mentorship, youth clubs, and combat sports programs. With discipline and role models, we offer a path toward purpose and growth.

### 2. Community Centres and Gyms

Gyms and community centres are the beating heart of many neighbourhoods. We provide funding, equipment, and operational support to help these vital spaces stay open, ensuring they remain places of connection, support, and growth.

### 3. Rebuilding Lives: Support for Injured Fighters and Veterans

Those who risk everything, whether in the arena or in service to protect others, deserve our support when their careers end due to injury or trauma. We offer rehabilitation, mental health support, and career transition programs, ensuring they have a path to recovery, resilience, and purpose.

### 4. Talent Development and Growth

We are committed to discovering and developing the next generation of fighters and champions. By providing training, mentorship, and resources, we help young athletes focus on their craft without the weight of financial and mental strain. Our goal is to create an environment where potential can be nurtured and transformed into success, changing not only individual lives but inspiring and uplifting entire communities.

## The Warlord Way

The Warlord Foundation operates on transparency and trust. 100% of donations go directly to the programs and people who need them. Costs to run the foundation are fully covered by Warlord, ensuring all contributions focus on impact.

Each territory in which we operate will establish a local foundation led by 1 patron and 11 trustees, ensuring funds reach those in need without delay. We aim to create lasting, self-sustaining change, building stronger, more resilient communities.

## Moving Forward

The seeds we plant today will grow into thriving communities, opportunities for the forgotten, and futures built on discipline and hope. Through partnerships with local leaders, gyms, and mental health organisations, we are ensuring that no one faces their battles alone.

Our mission is not just to help people survive but to empower them to rebuild their lives, inspire those around them, and create lasting change.

*"What we do for ourselves dies with us. What we do for others and the world remains and is immortal."* - Marcus Aurelius
